## **NDA Applauds Enactment of Infrastructure Investment and Jobs Act into Law**

[Washington, DC] – Today, the National Demolition Association (NDA) released the following statement after President Joe Biden signed the recently passed bipartisan infrastructure bill, known as the Infrastructure Investment and Jobs Act, into law:

“NDA applauds President Biden and policymakers from both parties for their efforts in enacting this \$1.2 trillion package into law which will benefit the American people, communities and the nation’s infrastructure”, said NDA President Scott Homrich of HOMRICH. “For the last several months, NDA has worked with Congress on including crucial priorities for the demolition industry in this bill including funding for critical projects, streamlined environmental permitting, and funding for the EPA Brownfield Program, among others. NDA member companies are ready to continue the vital work they do in their local communities and this legislation will facilitate that effort moving forward.”
